5th BSH Heart Failure Day for Training and Revalidation 2013 – Information

This training day has been designed to meet the educational needs of the heart failure component of the core curriculum in cardiovascular medicine, as well as the needs for advanced training in heart failure. It will provide an in-depth discussion around particularly challenging and often controversial management issues that will be relevant to trainees in internal medicine, care of the elderly specialists and GPs with a special interest in heart failure.

The day has been structured to provide a balance of carefully selected talks and interactive case-based sessions.
